

## NO REFUNDS POLICY

We pride ourselves on being the nation's first-ever full-service Walk-In Center focused solely on Women's Health.

We provide comprehensive Women's Health Services seven days a week without an additional membership fee (unlike other concierge medical practices, which offer convenience at an extra cost).

Health care can be complex. During your visit, we aim to provide you with safe and appropriate care, depending on your health status.

Treatment outcomes depend on many factors, some beyond anyone's control.

**There will be no refunds for any services rendered.**

A refund will only be due if your EOB states otherwise.

Please do not contact us to ask us to use different codes that benefit you. That is considered fraudulent billing.

Please review the [HHS guidelines](#) and [our website](#) to review what is covered under a preventative visit.

*Be safe, be strong and be prepared*
